Output: Feasibility analysis.

JUNE - DECEMBER 2015

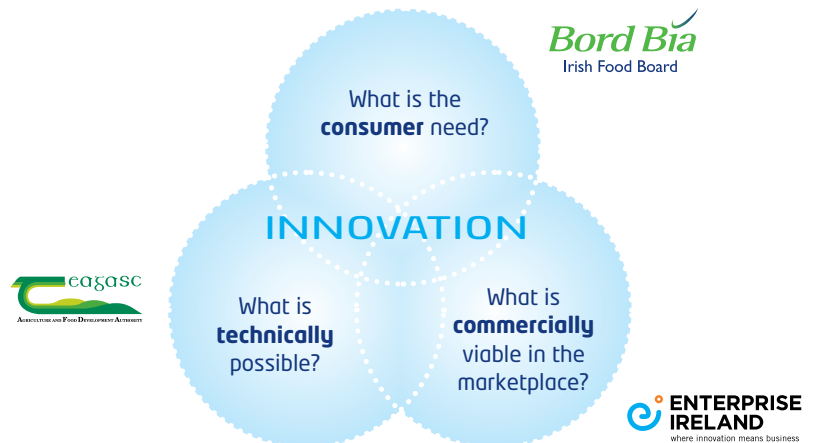

BEGIN YOUR VENTURE

Weekly/fortnightly **workshops** and **advisory sessions**.
Output: investor ready business plan.

PROGRAMME OVERVIEW

There is much talk and excitement about the Irish agri-food industry. Recognising entrepreneurship as the seedbed for innovation and growth, Teagasc, Bord Bia and Enterprise Ireland combined its resources and developed Food Works. It is a new innovative initiative aimed at creating and nurturing global food entrepreneurs. The programme is designed for ambitious and experienced teams who want to develop global food businesses for scalable export growth.

It is a five stage programme. Acceptance to stages 4 & 5 is a competitive process. Once accepted, participants will be provided with the tools and supports to undertake a detailed feasibility analysis in stage 4 and an investor ready business plan in stage 5.

This programme represents the first comprehensive collaboration between the three support organisations, with each bringing something unique to the table. Teagasc can offer its technical expertise; Enterprise Ireland the commercial and business element and Bord Bia, a wealth of marketing and consumer knowledge.

To check programme eligibility, register your interest, and to hear from previous participants go to www.foodworksireland.ie now.
