

THE IRISH TIMES  InterTradelreland

INNOVATION

AWARDS 2015

Innovation of the Year
Winner 2014

OxyMem

"Winning has helped to position the company as a leader in energy efficiency, both nationally and internationally. We have since seen a considerable rise in interest for the technology and continue to prosper from the recognition. We would encourage any company who believe they meet the criteria and want to reap the benefits of their hard work and dedication, to submit an application."

Could this be you in 2015?

6 categories. 1 big prize

Tell the world about your organisation's great idea. It could win you a prize worth €150,000.
