What is the Trading Online Voucher Scheme?

The Trading Online Voucher Scheme is an initiative under the Government's National Digital Strategy, funded by the Department of Communications, Climate Action & Environment. It is designed to support small Irish businesses to trade online by offering them training coupled with a financial incentive to develop their trading online capability. Irish consumers spend around €850,000 per hour online, 24 hours a day, up to 70% of which goes overseas. Companies that remain offline are missing out on the opportunity to be part of Ireland's growing digital economy.

Who delivers the scheme?

The scheme is delivered by Local Enterprise Offices (LEO) across the country. Small businesses can apply to their LEO for training and support to get their company trading online. The scheme is a matched-funding opportunity with up to €2,500 available to eligible businesses.

Who is eligible?

The scheme is open to small businesses that have a limited or no online trading presence, have no more than 10 employees and a turnover of less than €2 million. Applicants must be trading for a minimum of 6 months.

Our website investment was returned within 4 months, and we know we can continue to grow.

What can I use a Trading Online Voucher for?

Trading Online Vouchers can be used for:

- development or upgrade of an e-commerce website, such as implementing online payments or booking systems
- purchase of internet related software
- online advertising (subject to limits)
- development of an app
- development and/or implementation of a digital marketing strategy
- consultation with ICT experts
- training and support to develop and manage your online trading activity

What are the benefits to my business if I trade online?

Businesses that have successfully used the scheme report significant benefits:

- 21% is the average increase in sales
- 84% experience an increase in customer enquiries
- 73% say that the new online business is additional and does not displace existing sales
- growing businesses expect to recruit on average 1.4 more employees
- 3 out of 5 businesses begin to export
