Head Of Enterprise

Leitrim County Council is preparing a new Place-Based Economic & Skills Strategy 2026-2035 for County Leitrim.

Consultants BABLE Smart Cities have been engaged to develop the strategy which will guide how the county supports economic growth, job creation, skills development and community wellbeing over the next decade. To ensure the strategy reflects the needs and ambitions of people across the county, we are seeking the views of residents, businesses, workers, students, community organisations and other stakeholders connected to Leitrim.

Deadline for the survey is 19th April 2026.

Shaping Leitrim – Place-Based Economic & Skills Strategy 2026– 2035
