## CROSS BORDER TRADE & ECONOMIC CONFERENCE 2026: Building a Sustainable All-Island Economy

**Location:** The Carrickdale Hotel, Ravensdale  
**Hosted By:** Newry Chamber and Dundalk Chamber

This year's conference will once again focus on its central theme, "Building a Sustainable All-Island Economy", taking place on Tuesday 4th March in the Carrickdale Hotel & Spa.

At a time of significant local and global economic uncertainty, and with the rising cost of doing business creating an increasingly challenging environment, businesses must look ahead, plan strategically and play their part in building a sustainable and successful all-island economy.

The conference will bring together government representatives, keynote speakers, policy makers and business advisors to explore the future of cross-border cooperation and set out priorities for the region across three key themes:

1. The All-Island Economy
2. Skills & People: A Cross-Border Partnership Approach
3. Collaboration & Infrastructure at the Heart of the All-Island Economy

With Newry and Dundalk at the centre of the Dublin-Belfast Economic Corridor, cross-border cooperation is fundamental to economic success on both sides of the border.

The packed conference programme will provide you and your business with a unique opportunity to hear directly from experts on the issues that matter most, and to explore new opportunities for collaboration across the cross-border economy.

A wide range of exhibitors will also be in attendance, offering information on the supports and resources available and the chance to speak directly with organisations that can help your business grow and develop.

The conference is typically attended by 300+ business leaders and decision-makers from both North and South. Places are free and limited, so early booking is strongly recommended.
