

GETTING IRISH BUSINESSES ON-LINE

A new website for your business.

It could not be easier to get your business an online presence. Google, Blacknight, An Post and Local Enterprise Office Tipperary (former County & City Enterprise Boards) came together to create Getting Irish Business Online. The aim of this initiative is to take the time, hassle and cost out of getting a website so that owners/managers can get on with running their business.

Over the course of a half day workshop you will create your own easy to update website.
