# **Business Continuity Planning**

## Checklist of preparatory actions in responding to COVID-19

February 2020

# Responding to a COVID-19 Outbreak

## BUSINESSCONTINUITYPLANNINGCHECKLIST

The following is a checklist of some of the key risks to the continuity of your business activities during the outbreak of COVID-19 and of preparatory actions that can be taken to respond.

Many of the actions are the same as you would have prepared during any type of similar threat such as preparations for influenza pandemics. Your organisation should consider appointing a planning coordinator and/or team with defined responsibilities and budget for planning and for preparedness. A deputy should also be appointed.

If your organisation already has a business continuity planning process, you should consider addressing COVID-19 within that process. In relation to COVID-19, it is particularly important that your organisation uses the national resources, posters and guidance that are available and updated on a regular basis to reflect the rapidly emerging situation. The links to COVID-19 resources are available here [for employers](#), [FAQs](#), [posters](#) and issues such as [prevention & control](#).
